

Introducing the Targa Time Trial!

In celebration of Targa NZ turning 25, we have introduced the Targa Time Trial. Reflecting back to its origins where average speeds and accuracy were the name of the game, we thought this might encourage some of our past Targa cars out of the garage to participate in the 25th Targa anniversary event where we will be travelling approx 800 kilometres of special closed road stages and approx 1200 kilometres of touring.

Of course if you're after a bit more of an adrenaline rush then the Targa Competition is the place to be where we cater from the Classic 2WD right through to modern day Super cars.

For those who are wanting a bit more of a social aspect then the Targa Tour is the place to be where you only require your every day driver.

There are no excuses! Get your entry in before the end of the month and take advantage of the current pricing structure.

If you require further information please check out the [website](#) or give Peter a call at the office - I'm sure he will be happy to talk to you!
